

Tutorials, how to make games

First step: Register when you want to make the game for others.

Second step: If you gonna make the game you have to write title, create player movement and final thing is the most important to add spaces.

Tutorials, how to make games

Third step: You have to create questions, what to solve and you need good answers and interesting things.

Fully customize your game

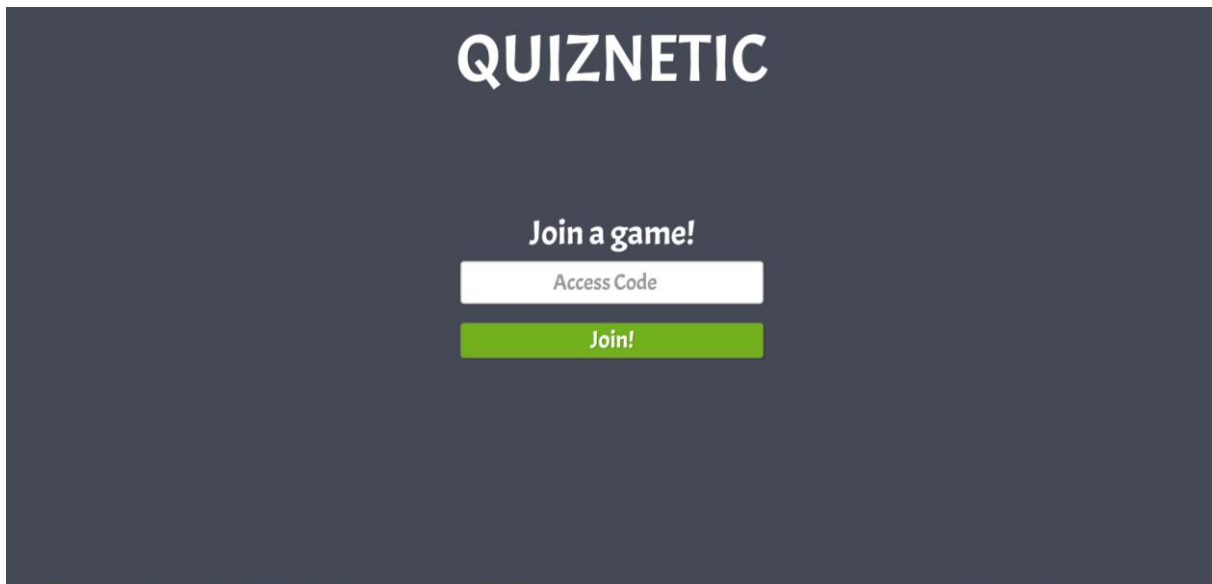

You have full control over the layout of the game and where players move. Use this software to unleash your creativity!

- Move anywhere!
- Any background!
- Multiple choice and numeric question types!

How to join in the game

First step: If someone created the game, you should have to get a access code to join a game.

Then just write your name . And when you get in you can play the game if the creator start the game.

The image shows a dark grey interface for joining a game. At the top, the word "QUIZNETIC" is written in large, white, bold, sans-serif capital letters. Below this, the text "Join a game!" is centered in a smaller white font. Underneath, there is a white rectangular input field with the placeholder text "Access Code" in a light grey font. At the bottom of the input field, there is a green rectangular button with the text "Join!" in white font.
