

# Quiznetic Tutorial —By Athene and Timi!

## How to join a Quiznetic:

- To join someone else's quiznetic, you go to <https://quiznetic.com/>.
- You then click join a game.
- You then type in the access code given to you by the game owner.
- The game will then tell you to wait until the owner presses start.
- The game will begin and you will have a series of questions with the answers of multi-choice, numerical or short answer options.
- If you answer questions right then you may move forward spaces and if you answer wrong you may move back spaces.
- When the game ends you will get a percentage, score and a position out of the people who are playing the game with you.

## How to create a Quiznetic game?

- To create a quiznetic game, you must create a quiznetic account. This requires your name and email.
- After you have confirmed your email, you click create new game and the page will load a display named game board.
- You choose a title for your game about your theme of your game. You can also fill in a description about your game and choose how many spaces you move forwards or backwards for right or wrong answers.
- Then you add at least 10 spaces, which will enable the game to work (You do this by clicking 'add space' at least 10 times).

- ✚ Then click on the questions tab at the top of the page and you can create your questions.
- ✚ You then write your question and select what answer you would like ( multi-choice, numerical or short answer.)
- ✚ Then you write in 4 answers, one being right and 3 wrong.
- ✚ You repeat this until you have the desired amount of questions.
- ✚ To add images you click the add image/ video and choose a file from your browser.
- ✚ After you click 'save game' and then you can give out your access code to players.
- ✚ You then click start game to begin.
